To whom it may concern,

**RE: Letter of interest to help as CINP secretary treasurer**

This is a letter is to express my interest to become the next CINP secretary treasurer.

I have been a Research Scientist at TRIUMF for the past six years. Among my duties, I have to manage several accounts, including my NSERC account and the Library account. As staff in the Theory Department and as a supervisor of several students and postdocs I am familiar with the planning and notebook keeping of the various activities in a group. Presently, I am serving the US community as a member of the APS executive committee of the group few-body, where we manage funds to sponsor conferences and students travels. Recently, I also became a member of the advisory board for the international collaborations in nuclear theory (ICNT) at FRIB, where my role is to review workshops and program proposals (for a budget of \$50k each) and make recommendations to fund or redirect to other institutions.

Thus, I feel well equipped to succeed in the job of CINP secretary treasurer.

In the past I have served as a member of the selection committee for the CINP graduate fellowship. This gave me a great opportunity to get to know the research activities of other groups in Canada. I am eager to get more involved in the Canadian community of nuclear physics and help it grow.

I attach a brief CV and thank you for your consideration.

Sincerely Yours,  
Sonia Bacca
